

**REMARKS/ARGUMENTS**

Favorable consideration of this application and entry of the foregoing amendments are respectfully requested.

The specification has been amended to correct an error introduced inadvertently via the Amendment filed May 9, 2005.

In the application as originally filed, the sequences in the paragraphs beginning at page 19, line 7 and at page 20, line 6, were the same. A typographical error was, however, introduced into the sequence set forth in the paragraph beginning at page 19, line 7 in the May 9, 2005 Amendment – both that sequence and the sequence set forth in the paragraph beginning at page 20, however, were assigned SEQ ID NO:1. In response to a Notice to Comply dated July 29, 2005, the sequence set forth in the paragraph beginning at page 20, line 6, was assigned SEQ ID NO:2. The above-noted revisions conform the sequences in the paragraphs at pages 19 and 20 to the text as originally filed and properly assign SEQ ID NO:1 to both.

The specification has also been amended to substituted the Sequence Listing submitted herewith on separate sheets for that previously filed. Entry of the attached Sequence Listing (which includes only SEQ ID NO:1) does not raise the issue of new matter as the sequence information contained therein is presented in the application as originally filed. The computer readable copy of the Sequence Listing submitted herewith is the same as the attached paper copy of that Listing.

An early and favorable Action on the merits is requested.

SCHNEIDER et al  
Appl. No. 10/088,677  
December 16, 2005

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
